Welcome Message

Welcome Message

Dear Colleagues,

On behalf of the Arab Neonatal Care Group, It's our pleasure to announce the 14th International Arab Neonatal Care Conference to be held at Raffles Hotel, Dubai, UAE on 22nd-24th September 2023.

The conference board this year is determined to bring together a rich list of eminent speakers from all over the globe. This goes with the extension of the very fruitful partnership with UENPS, ESPNIC, EMA, and POCUS NEO.

Our scientific committee has set the priority to practical activities with the aim of giving the maximum possible number of attendees the possibility to participate in workshops supported by industry partners.

One of the most important objectives of ANCG is to promote research in the region, thus we highly encourage all neonatologists to submit oral or poster abstracts. Selected papers for oral abstracts will be granted free registration in all the conference activities. Furthermore, an award will be presented for the best poster and best oral abstracts.

We are looking forward to meeting you all at ANCC 2023, ANCG's annual event and " The Neonatology Landmark of Dubai"!

Dr. Khaled El-Atawi
